

THE UNIVERSITY OF LAHORE
 Faculty of Information Technology
 Department of Computer Science & IT
Final Project Evaluation Report (Phase-I)
(Evaluator's Form)

Project ID	
Project Title	Contract .AI. SMART legal Document .
Supervised By	Sir. HAFIZ ALI YOUNAS.
Evaluated By	MUHAMMAD RASHID Mahmood.

GROUP EVALUATION		
Group Members Information		
Program	BSCS	
Serial No.	Student Name	ID
1.	Syed Yousof Raza	70139122
2.	Saad Nawaz	70137375
3.	Abdur Rahim	70135511

PHASE-I PRESENTATION EVALUATION FORM

Group Assessment Attributes(A)		
Project Design & Implementation		Marks out of 10
1	Problem Statement, Objectives, Significance (Clearly defined and justified)	<u>7</u> / 10
2	Comparative Analysis, Gap, Proposed Solution (Clearly defined and justified)	<u>7</u> / 10
3	Requirements (Functional, Non-Functional, System), Constraints/ Limitations (Complete and well-documented)	<u>6</u> / 10
4	System Level Use Case, Architecture Diagram, ERD, Class Diagram, DFD-Level 1 (Accurate, labeled, and synchronized with requirements)	<u>6</u> / 10
5	Overall Quality of Documentation (Clarity, Correctness, Formatting)	<u>6</u> / 10
TOTAL (A) OUT OF 50		32

Group Assessment Attributes(B)

Project Design Completeness (30%)

		Marks out of
1	Design Prototype (UI/UX Completeness) (All key screens mockups)	<u>8</u> / 10
2	Core Features Working (working features OR database schema OR integrations)	<u>0</u> / 10
TOTAL (A) OUT OF 20		<u>08</u>

Group Assessment Attributes (C)

Presentation & Communication Skills

		Marks out of 2
1	Clarity – Students explained technical content clearly.	<u>2</u> / 2
2	Visual Aids – Slides/diagrams are presented professionally.	<u>2</u> / 2
3	Confidence – Shows a strong understanding of the project	<u>2</u> / 2
4	Time Management – Stays within allotted time.	<u>2</u> / 2
5	Q&A – Answers questions logically and thoroughly	<u>1</u> / 2
TOTAL MARKS OUT OF 10		<u>09</u>

Group Assessment Attribute (A+B+C)

TOTAL MARKS OUT OF 80

49

PHASE-I DOCUMENTATION EVALUATION FORM-I

Final Year Project

Marking Sheet for FYP Phase-I Evaluation

Introduction

- The evaluator is kindly requested to thoroughly review the FYP phase-I document (first five chapters) and provide constructive feedback in this form latter.

Non-Technical Attributes: Chose one option [satisfied(S)=1, Partially Satisfied (PS)=0.5 Not Satisfied (NS)=0].

Document Formatting and layout:		S	PS	NS
1.	Document contains automated table of contents.			✓
2.	Page before chapter 1 has roman page numbers.	✓		
3.	Page onwards chapter 1 has numeric page numbers.	✓		
4.	Each chapter contain a start-up as a separator.	✓		
5.	Each page contains project title and session in the header.	✓		
6.	The title page contains university logo and detail.	✓		
7.	The title page contains required group and project details.	✓		
8.	Each table is numbered and label in the caption.		✓	
9.	Each figure is numbered and label in the caption.	✓		
10.	List of table and figures is mentioned in table of contents.		✓	✓
11.	The text in document is properly justified and aligned. Heading and font style are according to template.		✓	
12.	Overall, the document is proofread properly (no grammatical errors, no types, and no incomplete /informal sentences)	✓		
Non-Technical Attributes: Chose one option [satisfied(S)=1, Partially Satisfied (PS)=0.5 Not Satisfied (NS)=0].				

Chapter 1:		S	PS	NS												
13.	Introduction is precise relevant and to the point.	✓														
14.	Executive summary is precise and concise.	✓														
15.	Competitive analysis is detailed enough to present a clear composition of the proposed solution with the potential competitors.	✓														
16.	Problem with the existing system is clearly identified.	✓														
17.	Comprehensive Gap Analysis is performed and presented in the document.	✓														
Chapter 2:		S	PS	NS												
18.	All title as mentioned in the template.	✓														
19.	Functional requirements in the following table format: <table border="1"><tr><td>Id</td><td>Name</td><td>Desc</td><td>Input</td><td>Output</td><td>Basic Workflow</td></tr><tr><td></td><td></td><td></td><td></td><td></td><td></td></tr></table>	Id	Name	Desc	Input	Output	Basic Workflow									✓
Id	Name	Desc	Input	Output	Basic Workflow											
20.	Functional requirements are precisely explained according to the project scope and nature.	✓														

21.	System requirements are well presented in accordance with the format provide in the template document.		✓	
22.	Functional requirements are enough to fulfill and justify scope of project.	S	PS	NS
Chapter 3:				
23.	A separate use case diagram against each functional requirement (same Id)			✓
24.	A description table against each use case according to the format provided in template document.			✓
25.	Synchronization of each individual use case and functional requirements (same Id)		✓	
26.	A single aggregated use case diagram should represent the whole system at a glance.		✓	
Chapter 4:				
27.	Architecture Diagram.	S	PS	NS
28.	A complete entity relationship diagram should contain relationships, cardinalities, primary keys and other ERO requirements.	✓		
29.	A separate activity diagram against each functional requirement.	✓		
30.	A separate sequence diagram against each functional requirement.		✓	
31.	A separate collaboration diagram against each functional requirement.		✓	
32.	Synchronization of each individual functional requirements, activity sequence and collaboration diagram (<i>having the same id</i>)			✓
33.	State Transition Diagram and Class Diagram.			✓
34.	Component and deployment diagrams.			
35.	Reference in APA referencing format, if applicable.	✓		
Chapter 5:				
36.	User Manual			✓
37.	References	✓		
38.	Appendix	S	PS	NS
		✓		
		✓		
		✓		

Final Calculation		
Satisfied Attributes x 1:	(A)	= 23 = 23
Partially Satisfied x 0.5:	(B)	= 08 = 4
Non Satisfied Attributes x 0:	(C)	= 0 = 0
TOTAL: (A+B+C)/38*20		$\frac{27}{38} \times 20 = 14$

Partially Satisfied x 0.5:		(B)	=	9 x 0.5 = 4.5
Non Satisfied Attributes x 0:		(C)	=	7 x 0 = 0
TOTAL: (A+B+C)/38*20			=	14

ADDITIONAL COMMENTS AND RECOMMENATIONS:

THE UNIVERSITY OF LAHORE

GENERAL REQUEST FORM

APPLICANT INFORMATION

Student Name: Syed Yousaf Raza

Department: CS

Contact No: 03097876652

Registration No: 70139122

Session: Spring

Degree Program: BSCS

Date: 15 July 26

APPLICANT'S REQUEST

NATURE OF REQUEST: Review of FYP Evaluation Marks

Details: Dear Respected committee,

I Syed Yousaf Raza respectfully request a review of evaluation marks also on behalf of my team members Sadiq Naveed and Abdur Rahim. We believe some of the marks may not reflect the work that we submitted.

We would like to bring a few observations to your kind attention:

- Figures & captions All are properly numbered and captioned
- System level use case diagram our documentation includes a complete system level use cases
- State and Collaboration diagram: These diagrams were not mentioned in the FYP template then why we are given no marks
- Use case description tables: We provided complete use case description tables. Although not every individual table we believe the work submitted merits partial credit.
- Core features working: We demonstrated fully functional frontend with every button working and explained the features in detail. dummy data was intentionally used to illustrate the expected outputs of 2nd phase. ERD defining the database schema is also included

Received by (sign & Date) _____

Applicant Signature: [Signature]

REMARKS (For Official Use)

Following marks should be increased from topics are:
i) comparative analysis, Gap... ii) Requirement functional & non-functional
iii) Core features working.
components deployed
State diagram & Collaboration diagram (if it asked in template diagram)
Kindly review point no # 19.
